EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John R. Merkling on March 2, 2005. Amend claim 1 to read as follows:

1. A vehicle for lifting and transporting a container, the vehicle comprising:
 - a substantially U-shaped frame, said frame having first and second substantially parallel beams supported by wheels, said beams being spaced apart to receive a container there between, and being deflectable towards and away from each other,
 - at least one wheel pivotally mounted on each of said beams, said wheels pivoting to toe in relative the front of said vehicle to deflect said beams away from each other as said vehicle is moved backwards, and said wheels pivoting to toe out relative the front of said vehicle to deflect said beams towards each other as said vehicle is moved backwards.

Change the dependency of claim 19 to be dependent upon claim 1.

Response to Amendment

The amendments to the claims, specification and drawings filed on December 21, 2004 have been entered into the record.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The deflection of the beams as claimed in claim 1 is not taught or suggested by the closest prior art of Hogberg et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
